

# STAR WARS PAPER MINIATURES: "NABOOBIANS"

(BLAME TIM BRESNAN FOR COMING UP WITH THE TERM "NABOOBIAN"!)

**Fold miniature in half**

**Glue base to coin, washer, or Games Workshop base for extra support (if you don't want to spend any money, then glue them to the cardboard circles provided)**

**These miniatures are designed to be approximately the same scale as Wizards of the Coast's line of pre-painted Star Wars miniatures (sorry to all you fans of West End Games and Micro Machines!)**
